Academic & Course Planning Night  
Thursday, January 27th at 6:30 pm**

Rising 6th, 7th & 8th grade students and families are invited to attend our virtual academic planning night. DHMS counselors will review course information, electives options, and graduation requirements.

This is an opportunity to get questions answered with regards to next year's course selections. The program will begin with an introduction, and we will then move to specific breakout rooms for each grade level.

**We hope you can join us!**

(The programs will be recorded if you are unable to attend)
