
Exemplary Project Meeting

— June 7, 2023 —
Meeting #4

Welcome and grounding

Task #1

Create descriptions for each stage of the Design Thinking process that make sense for Innovation and our goals for students.

What do teachers need to know and understand about this stage?

What will students be doing in this stage?

Process

1. Choose a stage
2. Work with others at your stage to craft a description (7-10 minutes)
3. Visit the other stages and make suggestions or use a check mark to indicate agreement (2 minutes per stage)
4. Return to your initial stage to incorporate feedback (5 minutes)
5. Share out (5 minutes)

Task #2 - Discussion

Step 1: Discuss what can we realistically commit to next year in our first year of implementation? (10 minutes)

Step 2: Sort those commitments into the Action Priority Matrix (10 minutes)
